

## Faith Journal Sheet

Science Workshop:

Name \_\_\_\_\_

Today you added several substances to water.

When you stirred the salt, sugar, and baking soda into the water, what happened?

How is the substance dissolving into the water kind of like what happens to us when we are baptized?

What did the soap do to the oil in the water?

As part of God's family, we work with other baptized people to share God's love with everyone. We help each other, like the soap helped the water break up the oil.

Draw or write about how you care for others? How do you share God's love?

*And a voice from heaven said, "This is my son, the Beloved, with whom I am well pleased."* **Matthew 3:17**

*"Go therefore and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit,"* **Matthew 28:19**
